## 9. Third Party Information and Trading Data

---

Halal Money App may contain market data or other information from third parties, including hyperlinks to other websites. Such data or information is not under our direct control and has not been verified by us. Neither Halal Money, nor the relevant third party provider, makes any representation or warranty as to the accuracy, timeliness, reliability, appropriateness or completeness of any third party data or information.

You acknowledge that any such data or information is proprietary to us and/or the relevant third party provider, and you must not reproduce, adapt, modify, upload, link to, transmit, or distribute any such data or information to third parties, except as may be permitted by these Terms of Use, relevant Other Terms, or any applicable laws or regulations.

## 10. Utilising Fingerprint Access

---

If fingerprint functionality is enabled in the Halal Money App, and you have installed the App on a device equipped with fingerprint ID, you may activate fingerprint access for the Halal Money App. Enabling fingerprint access means you can open the App with your fingerprint rather than inputting a secure code. However, for certain sensitive information, we may still request that you enter your password or other details for added security.

You must not activate fingerprint access for the Halal Money App if your device stores fingerprints from individuals other than yourself. If you do permit someone else's fingerprints which allows access to your device and to the App (contrary to these Terms of Use):

- They may gain access to your Halal Money Account and / or Halal Money Trading Account and be deemed authorised to do so; and
- To the extent allowed by law, you will bear responsibility for their acts or omission, including their transactions.

Should you or another person modify the fingerprint settings on your device, it may result in the deactivation of fingerprint access for the Halal Money App. Only reactivate fingerprint access if you are certain that you authorised the alterations to your device's fingerprint settings and that only you can access the App using fingerprint identification.

Fingerprint functionality is an optional technology that you may utilise if it is supported by your phone model and you have activated it on your device. This functionality is provided by third parties, and therefore, within the bounds of the law, we are not liable for:

- Any malfunctions in fingerprint functionality; and/or
- Any changes made by those third parties to their fingerprint technology that affect your access to the App.

You will continue to have access to the Halal Money Services using your secure login and password. If you opt for fingerprint access for the Halal Money App, you will still require access to your email address and mobile phone number (under certain conditions) to receive messages. It is your duty to safeguard your email address and mobile phone number (where applicable) as described in these Terms of Use.

## 11. Facial Recognition Usage

---

If the Halal Money App is made available for download on your device and it supports facial recognition technology, you may have the option to activate facial recognition access for the Halal Money App. Enabling facial recognition means you can open the App using facial recognition technology instead of typing in a password or code.

You must not enable facial recognition access for the Halal Money App if the facial image stored on your device does not belong to you. If you have activated facial recognition on the App and permit others to have access to your device using facial recognition, you must not use facial recognition access for the Halal Money App. If you do allow someone else's facial image to be stored on your device such that they can access your device and the App (contrary to these Terms of Use):

- They will be authorised to access your Halal Money Account and / or Halal Money Trading Account; and
- To the extent allowed by law, you will be responsible for their actions and omissions, including their transactions.

If the facial recognition settings on your device are altered by you or someone else, facial recognition may be disabled for the Halal Money App as a security precaution, and you might be prompted to enter your password or other details. Only reactivate facial recognition if you are certain that you authorised the changes to your device's facial recognition settings and that only you can access the App using facial recognition.

Facial recognition is a feature you can choose to use if it is supported by your phone model and you have enabled it on your device. This technology is provided by third parties, and to the extent permitted by law, we are not responsible for:

- Any malfunctions in facial recognition technology; and/or
- Any modifications made by those third parties to their facial recognition technology that affect how you access the App.

You will continue to have access to the Halal Money Services using your secure login and password. If you opt to use facial recognition access for the Halal Money App, you will still need access to your email address and mobile phone number (under certain conditions) to receive secure codes. It is your responsibility to protect your email address and mobile phone number (where applicable) as outlined in these Terms of Use.

## 12. ETF Orders

---

In addition to the obligations set out in the Other Terms for the ETF products which are accessible through the App, in order to apply for units in one or more ETFs through the App, you acknowledge and agree that:

- **Placing Orders:** You can apply for units in an ETF by instructing the Halal Money App who will in turn instruct Openmarkets Australia. As set out in clause 8, we process your application through our partner, Openmarkets Nominees, as the Australian market participant. We reserve the right to decline applications if there are insufficient instructions or missing information, you do not have funds available in your Halal Money Account or for any other reason, including for us to be compliant with the law.
- **Order Execution:** We strive to process applications promptly, however we are not liable for delays beyond our reasonable control. If there are any discrepancies in your application, we will communicate with you. You are responsible for mitigating any losses we suffer from your application errors. We will confirm application details and send a confirmation to you.
- **Disputes:** If we suspect a dispute regarding an order, we may take action to close the position.
- **Your Commitments:** You must have the financial capacity to fulfill your order obligations. You must own or have access to the interests you want to sell. You must have sufficient funds in your Halal Money Account for buy orders, including to cover the Brokerage Fee.

- **Order Cancellation:** We may cancel your order if:
  - a. Our partners or the exchange have the right to do so and exercise that right; or
  - b. You request a cancellation.You agree to cover any losses we incur due to such cancellations.
- **Compliance:** You agree not to use our platform for illegal activities, including insider trading or market manipulation.
- **Investment Advice:** We do not provide any personal advice or recommendations. You are responsible for assessing whether applying for units in an ETF is suitable for you.

## 13. Market Order

---

Market orders for units in an ETF offer a direct method for entering or exiting positions in the Australian Securities Exchange by targeting the prevailing market price.

Market orders are placed 'at market,' which means:

- **Immediate Execution:** Market orders aim for instant execution at the best available ask price for buy orders and the highest available bid price for sell orders.
- **Dynamic Pricing:** If not filled immediately, the price adjusts automatically in increments:
  - a. Buy orders: Increase until a seller is found.
  - b. Sell orders: Decrease until a buyer is found.
- **Partial Fills:** Depending on market depth, your order may only partially fill, leaving an unfulfilled portion of your order.
- **No Guarantees:** Market orders do not guarantee a specific price or full execution. Limited supply/ demand or regulatory restrictions can hinder complete execution.

#### Additional Considerations:

- Expiry: Market orders typically expire 30 days after placement, unless the unit has a specific exchange-determined expiry date.
- Cancellation: Market participants or the exchange may cancel or "purge" your order under certain circumstances.
- Best Execution Policy: When you place your order via the App, Halal Money chooses to instruct Openmarkets Australia to execute orders solely through the Australian Securities Exchange (**ASX**) via an 'at market' order. For more information on the instructions placed by Halal Money to Openmarkets Australia, please see below. Halal Money acknowledges and confirms that, by placing an order via the App and Halal Money instructing Openmarkets Australia to execute orders solely through ASX, Openmarkets Australia is acting in accordance with its Best Execution Policy, which does not conflict with its obligations under the Corporations Act, the ASIC Market Integrity Rules or other relevant laws and regulations.
- Best Execution Instructions:
  - When showing ETF pricing within the App, Halal Money will generally give the ETF price a higher relative importance than the total number of units of the ETF when obtaining the best total consideration. Halal Money may also take into account a range of factors for the best price and units available via the App at the time the order is placed, including the requirement for timely execution, the liquidity of the market, potential price impact and the size of the order.
  - Clients' should be aware that other securities exchanges (and not simply ASX) may increase their volume of ETF orders and there is a possibility that a better price may therefore have been achieved on that securities exchange.
  - Halal Money agrees that, if a client makes a reasonable written request, we will provide that client with evidence that their order was executed in accordance with Openmarkets Australia's Best Execution Policy, subject only to these Best Execution Instructions.
- Whilst Halal Money will take all reasonable steps to obtain the best total consideration for its clients, if the client has not been provided with the best total consideration at the time the order is executed by Openmarkets Australia, Halal Money will directly compensate the client for the balance outstanding from the best total consideration, in a manner that Halal Money deems fit.
- Halal Money will review the best total consideration obtained by its clients on a regular basis.
- It is Halal Money's position that clients are not materially disadvantaged by these best execution instructions to Openmarkets Australia, irrespective of Openmarkets Australia's Best Execution Policy.
- Trade Vetting Rules: Your order may be subject to the order vetting rules of Openmarkets Australia and / or Openmarkets Nominees (if applicable), preventing orders that violate regulations or pose risks.

While market orders provide convenience for swift execution, they carry inherent uncertainty in terms of price and full execution. Carefully assess your risk tolerance and research the ETF before placing an order.

Further details are stipulated in the relevant Other Terms for the specific ETF product.

## 14. Order Settlement

---

Upon placing an order through the Halal Money Trading Account for interests in an ETF product, you shall receive an order confirmation email, which will detail the settlement amount (including fees) and settlement date.

- Buy Orders:

When your buy order is accepted, your Halal Money Account balance will be "restricted" for the order value (in the respective unit currency), being the relevant settlement amount, until settlement. Upon settlement, the settlement amount will be debited from your Halal Money Account, and the corresponding units will be credited to your Halal Money Trading Account.

- **Sell Orders:**  
When your sell order is accepted, the number of units in the ETF(s) is "restricted" in your account. This restriction changes to the "unsettled amount" (equal to the settlement amount) until settlement. Upon settlement, the settlement amount will be credited to your Halal Money Account, and the corresponding ETFs will be debited from your Halal Money Trading Account. The settlement amount typically takes up to 3 Business Days to reach your Halal Money Account. This timeframe is an estimate and not a guarantee. We shall endeavour to expedite the settlement process where possible, but we shall not be liable for any losses or damages arising from the reliance on the settlement amount being credited within the 3 Business Day period or any delay in the settlement process.
- **Failure to Settle:**  
You authorise Halal Money, upon a demand, to buy back or sell on your behalf any unsettled ETFs. You agree to indemnify Halal Money for any costs, expenses, or losses resulting from unsettled trades due to reasons not attributable to Halal Money.
